**Team number** ...............................

# Planning and event log

## Planning

How will your idea help Network Rail manage the increasing number of passengers on their stations? ..........................................................................................................................
....................................................................................................................................................
....................................................................................................................................................

## Engineering event Log

**REMEMBER** the focus should be on your engineering and your teamwork. Be specific, accurate and honest.

**Event log 1**

**Event log 2**

**Event log 3**

**Engineering priorities**

List your engineering priorities for the last half hour of development time. What does the team need to do, who will do what and in what order?
